

# 10 Tips On Working From Home Securely

[m3cybercare.co.uk](http://m3cybercare.co.uk)  
01738237003

#1 Change your home router default admin credentials

---

#2 Keep Operating Systems and software up-to-date

---

#3 Use WPA2 with AES for home Wi-Fi authentication

---

#4 Use your organisation's VPN connection only for work purposes

---

#5 Double check emails to ensure they are not phishing attacks

---

#6 Use strong passwords for authentication

---

#7 Use 2-Factor Authentication where possible

---

#8 Use personal hotspots instead of public Wi-Fi networks

---

#9 Accept automatic updates, even if they will take time to install

---

#10 Keep company data on company machines

---
